

Kura Care Adult & Children's Cutlery

NRS Kura Care cutlery enables everyone to enjoy eating together, no matter what their ability

Designed & developed by NRS Healthcare

Enables easier eating for people with reduced grip or dexterity.

Kura Care Cutlery can help people who have difficulty using traditional cutlery, which may be due to conditions such as arthritis, Parkinson's, visual impairment or dementia.

Designed to optimise grip and functionality, encouraging confident, independent feeding, without compromising on style or quality.

Building upon customer feedback, the Kura Care Cutlery range has been completely redesigned to create a discrete, premium, high-quality product that does not look out of place on any table.

New & improved product features

Comfortable ergonomic handles with rubber inserts to increase grip

Easy to clean, highly polished stainless steel

Improved fork tang to make picking up food easier

Carefully profiled finger indents to increase dexterity

Improved knife serrations to make cutting food easier

**More discrete
