QUANTUM[®]
REHAB

A Division of Pride Mobility Products[®] Corp.

Your new Pride Illustrated Parts Breakdown (IPB) Manual has been compiled from the latest product information available at the time of publication. Pride Mobility Products[®] Corporation reserves the right to make changes and updates to this manual and to the product(s) it represents. Any changes, updates, or improvements to the product(s) may result in slight differences between this manual and the product you purchased.

An IPB is an illustrated parts listing of all product components which have maintenance significance. IPB's utilize "exploded" drawings to detail the individual components for each assembly and an itemized list of reference numbers, part numbers, descriptions, and quantities per assembly. Some parts may be included in an assembly but may not be available for purchase separately. Refer to the parts list to locate the part numbers for assemblies and components for ordering what you need.

To achieve proper identification and relationship of detail parts and next higher assemblies, parts listings are presented in a convenient alphanumeric reference system. Reference numbers for parent assemblies identify one part number that can be used to order all of the components listed within it. Components of an assembly will have the same alpha character as its parent assembly.

- For example, the parent assembly part number using reference number of A1 — A4 is the only number you need to place an order for parts with references of A1, A2, A3, and A4. Instead of ordering 4 separate parts, use the parent assembly part number to get the complete assembly.

Master assembly part numbers have reference numbers that include several subassemblies. By ordering parts using master assembly part numbers, you can save a lot of time and reduce the chance for error.

- For example, A1 — G10, a master assembly reference number, includes all components of assemblies A, B, C, D, E, F, and G. Use caution when ordering assemblies. Check to see if a master assembly part number exists for the components that you need. If an entire master assembly is not needed, then the individual assembly part number (i.e. for reference number G1 — G10) will be sufficient to use for ordering.

Asterisks (*) and NOTES are used throughout this service manual to point out important information regarding assembly structure and contents.

- For example, in some illustrations, only the left OR right side is shown. In other drawings, only the front OR back is depicted. The part numbers for ALL components are listed. An asterisk will also be used to indicate which components are not illustrated. Illustrated Items without callouts are shown for assembly purposes.

Updates to the contents of this IPB will be made on a regular basis. Providers may retrieve updates immediately upon their release by going to the Pride Service Website. The web address is www.prideprovider.com. We welcome any questions or comments regarding the new Pride IPB Manual that you may have.

Please note that all pricing that is included with this manual is subject to change without any prior notice from Pride.

Thank you for choosing products from Pride Mobility Products[®] Corporation.

The parts list is continued on the subsequent pages.

Dynamic Shark

A1	4-Key
B1	5-Key

The Shark Joystick replaces the Flight Joystick

Remote Plus

D1	3-Key
E1	3-Key Profiled

VSI

G1	4-Key
H1	6-Key
I1	4-Key w/Charger Spur
J1	6-Key w/Charger Spur

Q-Logic

Q-Logic Stand Alone

Mounted on Side

Mounted on Bottom

Dynamic Flight Mount

Dynamic Shark Mount

Remote Plus Mount

VSI Mount

Q-Logic Mount

Q-Logic Stand Alone Mount

VII. Controller Assemblies

The parts list is continued from the previous pages.

REF #	PART #	DESCRIPTION	QTY	Dealer \$	MSRP	11i
S4	SCRSHCS1171	SCREW,SHCS,BLACK ZINC,6-32 X 0.625"	2	\$1.1	\$2.81	

Notes :

- *G1 For use on units equipped with a Universal or standard Synergy Seat .
- *H1 For use on units equipped with a Synergy Tilt thru Joystick.
- *I1 For use on units equipped with a Synergy Tilt thru Toggle, Manual Tilt, or Manual Recline.
- *J1 For use on units equipped with a Synergy Tilt thru Joystick and Manual Recline.
